

Our main policy is to become a leading institution that is preferred by our customers and to be an internationally revered brand in our industry, which produces lighting, electrical systems, air/brake systems, and body parts for the auto industry.

In order to achieve this, we have established the following goals:

- Maximize customer satisfaction and ensure its continuity.
- Maintain a zero-defect production by never compromising quality.
- Comply with all legal regulations and standards related to the auto industry.
- Efficient and effective utilization of all resources.
- Continuous improvement of production methods and machinery.
- Ensure compliance with professional rules and regulations.
- Continuous improvement of the Quality Management System.
- Respectful stance to society, people, and the environment.
